Tips on How to Recover Lost Items

Have you ever misplaced or lost your keys, wallet, or other essential objects? Staying calm and following the tips below may help you recover the object.

- Don't Panic. Check your immediate surroundings. Sometimes things are just where you left them.
- Think back to the last time and place you used the missing object. Retracing your steps may lead to the object.
- Call the people and places you've been recently. Now that you have narrowed down the places it could be, call your friends, your job, the bus station, etc. They may be holding your missing object for you.
- Ask others to help you look for the object. Enlisting the help of others will often enhance your chances of spotting the lost item. This could be your family members, your friends, or the bus driver.
- Contact your local police department. Normandy Park Police Department receives many found items. Call 206-248-7600 to see if the item has been turned in. NPPD holds found items under \$25 for a period of one week. Items of higher value may be listed in the [Unclaimed Property List located on the City website](#). These items are held at Normandy Park Police Department for a 30 day period.
